Deposit Bond Handling Fee	\$110	\$110	NA	NA	NA
Fixed Rate Lock Fee	0.15% of the loan amount or \$750, whichever is the higher	0.15% of the loan amount or \$750, whichever is the higher	NA	NA	NA
Discharge of Mortgage Registration Fee	Subject to State Government Requirements				

Mortgage Security Registration Fee	Subject to State Government Requirements	
Mortgage Stamp Duty	Subject to State Government Requirements	
Break Cost Fee (fixed rate loans)	Refer to table below	NA
Lenders' Mortgage Insurance (if Loan to Value Ratio is above 80%)	Price Available on Application	NA

<sup>1</sup> Valuation Fee varies dependent on type and complexity of property. Minimum fee shown. <sup>2</sup> Per guarantor <sup>3</sup> Plus SCCU solicitor fees, PEXA fees and relevant government charges <sup>4</sup> Consolidation is subject to credit criteria

### What do these Fees Mean?

Break Cost Fee	<p>May be payable if you repay your loan early or if you make an additional repayment, during any period in which your interest rate is fixed.</p> <p>Break Cost Fee is calculated and charged as indicated below:</p> <p>A Break Cost Fee ("BCF") may be payable if you repay your loan, or if you make an additional repayment, during any period in which your loan interest rate is fixed.</p> <p>The BCF is based on the difference between the <b>Fixed Rate</b>, i.e. the interest rate for your fixed interest rate contract, and our <b>Reinvestment Rate</b>, which is the interest rate that we can reasonably expect to earn on any amount that is repaid early.</p> <p>The BCF reflects the cost incurred by us if the <b>Reinvestment Rate</b> is less than the <b>Fixed Rate</b> at the date of repayment.</p> <p>The minimum BCF is zero. We will not pay a refund for any advantage gained if the <b>Reinvestment Rate</b> exceeds the <b>Fixed Rate</b>.</p> <p><b>Repayments not subject to Break Cost Fee</b></p> <p>We will waive the BCF if your total additional repayments during any year (starting from the anniversary of your fixed interest rate period) do not exceed \$10,000.</p> <p>If your additional repayments exceed \$10,000 in any year, the BCF will apply only to the repayments in excess of \$10,000.</p> <p><b>Calculation of BCF</b></p> <p>The BCF will be calculated using the following steps:</p> <ol style="list-style-type: none"><li>1. The proportion of your loan balance that is being repaid subject to BCF will be calculated as: <b>Proportion = (Repayment – Tolerance) / Balance.</b></li><li>2. The interest that would be lost to us if you fully repaid your current loan balance will be calculated as: <b>Amount (1) = Balance x Years x (Fixed Rate – Reinvestment Rate).</b></li><li>3. An interest offset based on your expected future loan instalments will be calculated as: <b>Amount(2) = Instalment x N x (Fixed Rate – Reinvestment Rate) x Years / 2.</b></li><li>4. Your BCF will be calculated as: <b>Proportion x [ Amount (1) – Amount (2)].</b></li></ol> <p>The BCF cannot be less than zero.</p> <p><b>Definitions:</b></p> <p><b>Balance</b> is your total loan balance outstanding after any regular scheduled repayments, but before your additional repayment.</p> <p><b>Fixed Rate</b> is the fixed interest rate (% p.a.) applicable to your loan contract.</p> <p><b>Instalment</b> is the regular loan instalment you have been paying each week, fortnight, or month, at the date of repayment.</p> <p><b>N</b> is the number of whole instalment periods (weeks, fortnights or months depending on your instalment frequency) remaining in your fixed interest rate term, at the date of repayment.</p> <p><b>Reinvestment Rate</b> is the interest rate (% p.a.) that we can reasonably expect to earn on any amount that is repaid early. This rate will be determined as our interest rate at the date of repayment for a fixed interest rate loan with a term equal to <b>Years</b>, or the nearest term less than <b>Years</b> for which we offer fixed interest rate contracts. If there is no such fixed interest rate, then <b>Reinvestment Rate</b> will be taken as our standard variable interest rate at the date of repayment.</p> <p><b>Example</b></p> <p>If at the date of repayment, we offer fixed interest rate contracts for terms of one, two, three or five years, then Reinvestment Rate will be based on the value of Years as follows:</p> <p><b>Repayment</b> is the additional repayment that you are making, i.e. in addition to your regular loan repayment instalments.</p> <p><b>Tolerance</b> is the additional amount that you can repay without a BCF applying. Within any one year (starting from the anniversary of your fixed interest rate period) you can make additional repayments up to \$10,000 without a BCF applying.</p> <p><b>Years</b> is the number of years remaining in your fixed interest rate term, at the date of repayment. <b>Years</b> is calculated as <b>N/52</b> if you are making weekly repayments, <b>N/26</b> for fortnightly repayments, or <b>N/12</b> for monthly repayments.</p>
----------------	--

	<p><b><u>Years (remaining in fixed interest rate period)</u></b></p> <p>Less than 1 year 1 year or more, but less than 2 years 2 years or more, but less than 3 years 3 years or more, but less than 5 years 5 years or more</p> <p><b><u>Reinvestment Rate</u></b></p> <p>Standard Variable Rate 1 year fixed interest rate 2 year fixed interest rate 3 year fixed interest rate 5 year fixed interest rate</p> <p><b>Example</b> The following example is provided to illustrate how a BCF is calculated using the above steps. Any BCF payable under your contract will depend on the loan details specific to the contract. A member takes out a loan of \$200,000 with a fixed interest rate period of three years, and a fixed interest rate of 9.30% p.a. The member's interest-only repayments are \$1,550 per month. After one year, when the loan balance outstanding is still \$200,000, the member makes an additional repayment of \$50,000. The member has made no previous additional repayments. When the repayment is made, there are 24 whole months remaining on the fixed interest rate period, so <b>N</b> is 24 months and <b>Years</b> is <math>24 / 12 = 2.00</math>. If, at the time of repayment, our 2-year fixed interest rate is 8.50% p.a., then the <b>Reinvestment Rate</b> will be taken as 8.50% p.a. The member's BCF will be based on the difference between the <b>Fixed Rate</b> of 9.30% p.a. and the <b>Reinvestment Rate</b> of 8.50% p.a.</p> <ol style="list-style-type: none"> <li>The proportion of the loan balance that is being repaid subject to BCF is calculated as: <b><math>(\text{Repayment} - \text{Tolerance}) / \text{Balance}</math></b> where Repayment = \$50,000, Tolerance = \$10,000, and Balance = \$200,000, <math>= (\\$50,000 - \\$10,000) / \\$200,000 = 20.00\%</math>.</li> <li>The interest that would be lost to us if the member fully repaid their current loan balance is calculated as: <b><math>\text{Balance} \times \text{Years} \times (\text{Fixed Rate} - \text{Reinvestment Rate})</math></b> <math>= \\$200,000 \times 2.00 \times (9.30\% - 8.50\%) = \\$3,200.00</math>.</li> <li>The interest offset based on the member's expected future loan instalments is calculated as: <b><math>\text{Instalment} \times \text{N} \times (\text{Fixed Rate} - \text{Reinvestment Rate}) \times \text{Years} / 2</math></b> <math>= \\$1,550 \times 24 \times (9.30\% - 8.50\%) \times 2.00 / 2</math> <math>= \\$297.60</math></li> <li>The member's BCF is calculated as: <b><math>\text{Proportion (1)} \times [\text{Amount (2)} - \text{Amount (3)}]</math></b> <math>= 20.00\% \times [\\$3,200.00 - \\$297.60]</math> <math>= \\$580.48</math>.</li> </ol>
Deposit Bond Handling Fee	A Deposit Bond is a financial guarantee used as a substitute for the cash deposit required when signing the contract to purchase property. The Deposit Bond can be issued for any amount up to 10% of the agreed purchase price. At settlement, the Purchaser must then pay 100% of the agreed Contract price.
Direct Debit Dishonour Fee	Charged if your direct debit payment is dishonoured due to insufficient funds.
Discharge Fee	Charged when you pay out your loan. It covers SCCU costs associated with releasing your title. Fee payable per security to be discharged.
Discharge of Mortgage Registration Fee	Payable to the relevant government land registry when a discharge of mortgage is to be registered.
Establishment Fee	A one-off upfront fee to establish your loan.
Fixed Rate Lock Fee	Home Loan feature that can guarantee the fixed interest rate for the term chosen where otherwise the rate is subject to change if rates increase.
Guarantor Security Variation Fee	Modifying existing guarantor security on a loan including changes to security details and removing guarantors from the loan
Loan Consolidation Fee	A one-off fee to consolidate two or more variable rate loan accounts with the same loan purpose ie all Owner Occupied or all Investment.

Legal Fee	A one-off fee required to document and settle your loan.
Legal Fee (Trust Deed Review)	A trust deed is reviewed if a trust entity is the borrower or guarantor of the loan.
Lenders' Mortgage Insurance	Lenders' Mortgage Insurance protects us if you are unable to meet your mortgage repayments and the property has to be sold.
Loan Top-up Fee	This is an additional establishment fee for increasing your loan amount at any point after the home loan has been finalised.
Loan Variation Fee	When there is a variation made to an existing loan agreement. For example remaining loan term, altering repayments or family name change.
Monthly Fee	A monthly recurring facility administration fee
Mortgage Security Registration Fee	Payable to the relevant government land registry for registration of a mortgage.
Mortgage Stamp Duty	Stamp Duty is a tax levied by Australian States and Territories on property purchases.
Product Switch Fee	Variations to your loan including changing product, fixing your interest rates or switching between interest only and principal and interest repayments.
Progress Valuation Fee	Applicable on construction loans when progressive payments are made to your builder.
Property Valuation Fee	If using a property as security for the loan, we need to confirm what the property is worth. This fee covers the cost of valuing your property which can vary depending on type and complexity of the property.
Recontracting Fee	Any amendments made to the loan after the loan contract has been created but before it has been funded will incur a fee.
Redraw Fee	Charged if you access advance payment on your loan in-branch.
Security Guarantee Fee	If you require or elect to have a guarantor for your loan, this fee is charged to cover the additional administration costs.
Security Variation Fee	When there is a variation made to the security used for an existing loan agreement. Fee payable per security.
Unused Limit Fee	Applicable when the facility is not fully drawn, a fee will be calculated daily based on the unused limit each day at the unused limit fee rate per annum and charged to the account at the end of each month.

### Application & Ongoing Fees

These are the standard fees applicable to our Personal Loan products.

Fee	Secured Personal Loan	Unsecured Personal Loan	New Vehicle Loan
Establishment Fee	\$250	\$250	\$250
Monthly Fee	\$8	\$8	\$8
